

ATAKAN ULUDAG

SENIOR FRONTEND DEVELOPER

Experienced in all JavaScript frameworks

SUMMARY

Since 2015, I have been working as a Full Stack and Frontend Developer, actively contributing to numerous CRM, ERP, B2B, B2C, and Intranet portal projects. While my core specialization is Frontend development, I have consistently taken on Full Stack roles, leveraging my strong expertise in Backend architecture. My technical versatility also extends to mobile application development and DevOps practices, including Azure DevOps, Docker, Coolify, and CDN management.

I have a disciplined, well-organized, and solution-oriented work approach, always aiming to deliver projects accurately and on time. Dedicated to continuous improvement, I strive to create value through innovative projects that prioritize user experience, efficiency, and scalable infrastructure.

EDUCATION

Bahcesehir University - Istanbul **2013 - 2015**
Associate Degree in Computer Programming

Alibeykoy Vocational High School **2008 - 2012**
Database Programming

WORK EXPERIENCE

Monster Bilgisayar Teknoloji Ürünleri A.Ş. **2021 - Present**
Senior Frontend/FullStack Developer

I develop CRM, ERP, and intranet applications using React, TypeScript, Next.js (SSR), and Nest.js technologies. Some of the projects I have worked on include an E-Commerce Mobile App, Product Support Portal, Digital Product Key System, Technical Service Application, and an Intranet Admin Management Portal.

Nuevo Yazılım Çözümleri A.Ş. **2019 - 2021**
Senior Frontend/FullStack Developer

I developed intranet projects for corporate clients using React and TypeScript on Microsoft SharePoint. These projects were designed for internal use within organizations.

Some of the companies I have collaborated with include Turkish Aerospace Industries (TAI), Turkish Red Crescent (Kızılay), Atasun, Pronet, Tekfen, Titaş, Temsa, Total, Trenkwalder, Mondelēz, Sanko, and the Investment Office of the Presidency of the Republic of Türkiye.

Darendeli Holding (Darendeli Teknoloji) **2015 - 2017**
Middle Frontend Developer

I worked with AngularJS, Node.js, JavaScript, and PHP technologies. In addition, I converted PSD designs into HTML for front-end implementation. To migrate clients' projects to modern technology stacks, I performed database migrations and transferred data to MongoDB. Most of my work focused on AngularJS and JavaScript, through which I significantly improved my front-end development skills.

Intern

I worked on web design integration, WordPress plugin development in PHP, WordPress theme customization, and various small-scale PHP-based projects and enhancements.

TECHNICAL SKILLS

- JavaScript, React, TypeScript, Node.js, Next.js, Nest.js, MongoDB, CSS, SASS, Tailwind CSS, and popular theme frameworks.

CERTIFICATES & TRAININGS

- Turkcell JavaScript Programming Training
- Turkcell jQuery Programming Training
- LinkedIn Learning React&Typescript Course
- LinkedIn Learning FullStack Course
- Algorithm Programming Training

LANGUAGES

- English – Basic (Good understanding of technical documentation)
